Designer

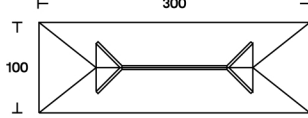

1997 – 2021
Gianfranco Frattini

With the precision and vivid identity that Gianfranco Frattini imbued in his work, the Maestro table was designed to conjure function and perfection in living spaces. The current version follows the original design and maintains its aesthetic appearance but introduces more contemporary wood and dimensions which are consistent with living areas and domestic interiors. The base, made of solid black ash wood and dark stained walnut, is characterised by an interplay of cutouts reminiscent of traditional Japanese architecture.
