

Duetto, the latest addition to the MDF Italia stool collection. The result of a collaboration with the 967Arch studio, Duetto stands out for its simple and practical design, offering a wide range characterized by extraordinary adaptability. This versatile seat not only fits perfectly in domestic spaces but also integrates into contract environments, demonstrating its effectiveness in various contemporary settings. Duetto is more than a stool; it is an icon of style and functionality that adapts to the needs of a sophisticated and modern audience.

Structure

The load-bearing structure is made of powder-coated (micro-groffered steel) in the following colours:

- matt painted white X053
- matt painted graphite grey X054.

Seat and footrest

The seat and footrest are made of glass-filled polypropylene in white and black colours, matching the structure. Only monochromatic combinations available.

Available in two heights: H66.7 / H76.7 in the fixed version and H67.5 / H77.5 in the 360° swivel version. For 360° rotation, it is necessary to purchase the swivel mechanism separately.

This product is suitable for indoor use only.

For further information about specs, please refer to the technical section at the end of the price list (tables of materials/colours).
