MANIFESTO

ITALIAN DESIGN LOOKS FORWARD

*An unquenchable desire to experiment
and rewrite the rules of design:
the Renaissance is now.*

Innovation and design blend to create artwork for living. It's the balance of science and art that Leonardo da Vinci depicted in his Vitruvian Man. Perfect proportions, purely Italian.

Man and his machines are revolutionizing design. An Italian artisan's expert eyes and masterful hands applied to cutting-edge technology create perfection.

Always avant-garde, experimenting, surprising: excellence arises from a limitless, burning desire to do things well.

These are the pillars supporting Teckell innovative research, together with the striking use of precious and eternal materials such as marble, wood and crystal.

**MADE IN
ITALIA**

Teckell's soul is held in the hands of select Italian maestri artigiani. These artisans give Teckell's artworks the creativity and the touch that only a human hand can provide.

**PATENTED
BY TECKELL**

All designs and details are engineered by the company's own R&D department. Every piece is realized with cutting-edge tools and technologies: innovation and design blend to create artwork for living.

**APPROVED
BY PROFESSIONALS**

Tested by professionals, certified by fine luxury experts. Perfection found in the details, in the minimal approach of clean lines, exact angles, exquisite materials selected with care.

INNOVATION BECOMES EMOTION

Gianfranco Barban, B.Lab Italia and Teckell CEO, grew up watching and helping out master craftsmen in his family's custom carpentry workshop.

"I AM INTERESTED IN OBJECTS THAT EXPERIENCE AND SHAPE TIME, THAT ARE ENHANCED WHEN IMMERSED IN ITS NEVER-ENDING MARCH FORWARD".

The creative climate where Gianfranco grew up inspired independent thinking and a stream of ideas for new ways to use materials and objects: in 2002, he opened B.Lab Italia, a multicultural workshop where experimentation is the modus operandi for breaking new ground in the world of design.

Today, after 20 years, Teckell Design Lab is a vibrant example of the Italian creative tradition in which people, skills, ideas, dreams and projects unite to invent. The brand has collaborated with a wide variety of professionals and, since its earliest days, dared to take on seemingly impossible projects that have the potential to revolutionize a product, creating an overwhelming everyday experience.

CONTAMINARE [:contaminate]

"Research in diverse fields uncovers new aspects."
- Teckell CEO Gianfranco Barban says.
"For example, if I create a chair with a musician, the product will have a spirit and a style completely different than a chair created with a traditional designer." - Teckell always aims to present something exceptional, innovative, different than the status quo. This isn't simply designing but combining: research, passion, ideas and a fusion of inspirations.

TECKELL'S CONTEMPORARY LUXURY LIFESTYLE

Teckell crafts unique, avant-garde design pieces with a cutting-edge approach that allow global clients to cherish and enjoy the Italian "Dolce Vita."

Entirely Made in Italy, the unique pieces in Teckell Collections travel around the world to integrate seamlessly into any setting, any place, any personality, any style.

Time is a precious gift these days. This is Teckell's inspiration to create objects with which you can interact during those stolen moments when you savor the good life, alone or in company.

These are sophisticated, understated luxury items that don't adhere to fly-by-night fashions. Quality defines these new status symbols. Whether you are a collector or

connoisseur, Teckell's gorgeous design objects are for passing down to the next generation but, above all, for enjoying today.

STYLE [:style]

Teckell faces the perennial challenge of creating phenomenal products that also reflect the latest trends. Products that simultaneously exemplify minimal design, blend in well in a contemporary-classic setting and look perfect in an home with an exclusive style. Fine yet definite lines, extraordinary details and finishes set Teckell apart.

ARTISANAL EXPERIENCE

*The new Old Masters - Italian Maestri Artigiani
- creating modern masterpieces.*

PATRIMONIO [:heritage]

Teckell is not only the highest technological solutions and modern technologies. Teckell true core stands in its artisanal heritage. Craftsmen create every Teckell piece with their rough and often wrinkled hands, living proof of their expertise. These hands, when they were still smooth, were taught the art by a master craftsman who, in his day, had learned from another master craftsman. Generations who cut crystal, carve wood and mill metal to create the one-of-a-kind pieces in the Teckell collection.

"We never stop improving our products, and thanks to our collaborators, we are continually discovering new ideas and solutions."
- Gianfranco Barban said.

Trust is the tie that binds innovative Teckell and its master craftsmen, a creative force capable of the extraordinary. These are not merely business contacts but long-term relationships that have become friendships based on mutual respect.

TIMELESS BEAUTY AND VALUES

*Inspired by timeless beauty of nature.
Shaping timeless, iconic masterpieces.*

Made in Italy is a philosophy rooted in quality, craftsmanship and infinite creativity. Northern Italy, Teckell's base, inspires the brand's artistry: timeless yet modern, sleek yet stylish, edgy yet elegant. Northern Italy stirs the senses.

Teckell collections blend together innovativeness and good taste, precise engineering and artistry. They have a strong tie to the culture of the Italian land and benefit from a truly extraordinary personal, human touch.

Teckell's natural surroundings have inspired and continue to inspire every single piece bearing the company's name. Dramatic mountains distinguish Italy's Varese province and neighboring Switzerland. These towering mountains are reflected in the limpid, glacier-carved lakes, not unlike the shimmer of crystal, Teckell's favorite material.

Villages and villas dot Lake Como, just one of many in the Lake District that since the Roman era has been a refined retreat for aristocrats - No detail was overlooked in the architecture, and the materials were painstakingly selected. Teckell adheres the same standards when choosing wood, marble, all its materials.

This is Teckell: refined beauty realized with the careful selection and crafting of sustainable materials; a mission to create timeless, environmentally friendly objects; a reverence for its homeland; and community involvement through various social projects.

Everything revolves around B.Lab Italia's family and artisan roots. In short, this is a workshop that embraces the traditional values of sharing, respecting nature, fostering creativity and embracing humanity. These same values are seen in the international brand that we know today as Teckell.

OSSERVARE [:observe]

For Gianfranco Barban, nature is an endless source of inspiration:

"I will occasionally ask myself how nature would have designed the objects that surround us. Would they have been created in a solid color or with a ruler and t-square? Definitely not."

Teckell.®

BEHIND THE GLASS

EXQUISITE MATERIALS

*Teckell transcends time with iconic objects and enduring materials.
These are our blank canvas.*

RICERCARE [:research]

Only the most precious and polished materials are accurately selected to become part of Teckell timeless masterpieces.

A masterpiece begins with the finest elements, whether calacatta marble or canaletto wood, fine metal or pure crystal.

Teckell's R&D department and designers are constantly on a quest to discover exceptional materials. Run of the mill won't do. The perfect example is calacatta marble. The extremely precious rock is extracted from a legendary quarry in Carrara, Italy.

The research and perfectionism behind every collection extend also to company communications. The Teckell touch is seen in showroom displays and events, marketing materials and sample books. Even our online and social media presence is carefully crafted.

SOLID WOOD

it all started here

Teckell reinterprets the great classics, transforming them into living objects. Solid wood – natural, elegant and enduring – is among the materials that elevate the Collections. For all those who embrace sustainability as the true form of contemporary luxury. In fact, Gianfranco Barban's family background helped sculpt and continually inspires his professional journey: *"In essence, I was born in this carpentry workshop. I loved spending time there and in the forest just outside our door."*

GLASS MASTERS

the essence of a Teckell table

Teckell looks to the future, consistently developing technological solutions for ever-more-innovative designs. Form and function align, and the technology is laid bare, in all its perfection, behind pure, exquisite crystal. Those marvelous atoms arranged just right create a solid that shimmers and reflects.

AUTHENTIC MARBLE

an eternally beautiful material

Marble, in its most prized forms, like Marquina and Calacatta, is a material of undeniable excellence, always dear to Teckell. Marble components exalt the beauty of timeless objects: unique, rare, true works of art. Marble, an eternally beautiful material. Teckell has chosen this rock to add grandeur to certain extraordinary design pieces, transforming them into true works of art. Italy's finest Renaissance artists created with this marvelous material. History, art and hard work run relentlessly through the marble's delicate veins. Forever fascinating.

REFINED METAL

blends well with any contemporary interior

A tireless quest for elegance and excellence meets a passion for contemporary style. Metal updates and lends individuality to every Teckell product, making it the perfect complement to furnishings already attuned to future trends.

EXCLUSIVELY TECKELL

*Each piece has its own pedigree, resulting in unique masterpieces.
Redefining the boundaries between art and design.*

The Teckell logo is engraved onto every piece, guaranteeing the authenticity.

This discreet, dignified logo confirms Teckell's quality which already shines through in the attention given to every detail, typical in Italian artistry.

The limited edition series are noted with an "LE" and numbered.

In addition, they feature unique details that the company periodically updates to ensure that the products retain a tailor-made feel.

And for a truly personalized touch, the owner's name or a favorite phrase can be engraved onto select pieces in the collections.

TECKELL'S CREATIVE HEADS

GIANFRANCO BARBAN

Architect and Teckell CEO

Gianfranco Barban received a bachelor's degree in architecture in 1994 from the Politecnico di Milano. Yet he first started exploring the world of research and design years earlier. In much of his work, Gianfranco Barban explores new ways of envisioning crystal.

Inspired by nature, science and technology, he seeks to blend art and design into extraordinary objects. Even though he was trained as an architect, he employs an artisan's approach and distinctive style. Research into materials and their use is at the heart of every project.

As a result, the esthetic is continually evolving in surprising, captivating ways.

ADRIANO DESIGN

Teckell Calcio Balilla Collection

Davide and Gabriele Adriano are brothers, award-winning designers and the founders of Adriano Design. They've worked with prestigious national and international companies. Over the years, they've earned numerous international awards including a Compasso d'Oro, iF Product Design Award, Design Plus award, Designpreis Deutschland award and Good Design Award. With a broad vision, their design work encompasses and innovates every imaginable type of product. Designing without limits, taking on the challenge of transforming an everyday object into a luxury item.

"Only those who attempt the absurd will achieve the impossible." - M.C. Escher

Not merely thinking outside the box. Reinventing it. No matter the sacrifice.

A vision that we share with our team of top-notch designers.

Each life story reveals an unbridled love for designing, a desire to create the extraordinary.

MARC SADLER

Teckell Biliardo Collection

A man of the world, French citizen Sadler was born in Austria and has worked in France, the United States, Asia and Italy. One of the first people to receive a degree in industrial design in Paris, he's a pioneer in material experimentation and technological crossover. Today he serves as a consultant for companies in a wide range of fields. He's won the Italian Industrial Design Association's prestigious Compasso d'Oro award four times as well as many other International prizes.

LORENZO DI GIOVANNI

Teckell Design Lab

Di Giovanni breathes design and the quest for new materials and methods. After earning an industrial design degree from Politecnico di Milano university, he worked as a home appliance designer and on optimizing 3D design for computer-aided manufacturing (CAM). He joined B.Lab in 2015. Three years later, he won the prestigious IDA Design Award for Teckell's Stratego game board. Di Giovanni designed this single board that offers multiple game options using Teckell's tried-and-true materials of marble, crystal and steel.

Teckell EFFETTO 71
Table Tennis

2023
Preview

MAKING HISTORY

Teckell has transformed the games we love to play.

From pool to chess, the games are crafted from the finest crystal and natural materials for professional-level playing and unprecedented style.

Table tennis is getting the Teckell touch with its model **Effetto 71**.

Hear in a whole new way the ball's delightful ping-pong, which gave the game its nickname.

The name **Effetto 71** honors that signature bounce and ping-pong's ability to foster peace and unity.

In 1971, the Chinese government invited the U.S. table tennis team to visit China for a series of friendly matches, even though the two countries had severed diplomatic ties decades earlier.

The young Chinese and U.S. players transcended borders and cultural differences around ping-pong tables.

Teckell Effetto 71 further transforms the sport with its crystal table top. Far from fragile, the transparent material is rock solid and the ball bounces smoothly for a fast, fluid game. The solid American walnut legs are shaped to represent the ball's trajectory inverted and harken back to the lines often seen in 1950s and '60s Italian design.

CALCIO BALILLA: A PORTRAIT OF ITALIAN MEMORIES

The concept of Calcio Balilla (foosball) takes shape in sport bars where soccer fans used to meet to celebrate their local teams victories on the field.

Its creation was possible thanks to the enthusiasm and the creativity of carpenters whose skills overcame their lack of available technology. A passion shared by the people.

They play in stuffy soccer team's club houses in Rome, men's only clubs in Milan, and on dusty piazzas in Palermo. Generations that joke, jostle and find joy in a classic game. Simply Italian Dolce Vita.

This beloved game of the people has been transformed into a luxury item without losing its pure essence. Teckell has reinvented the classic foosball table as a coveted work of Italian art.

"DESIGN
WITHOUT LIMITS
AND ALWAYS ACCEPT
THE CHALLENGE:
EVERYTHING
CAN BE DESIGNED
IN A DIFFERENT
AND BETTER WAY".

The Adriano brothers - two excellent and skilled Italian designer from Turin - gave birth to the first Teckell Calcio Balilla together with the visionary Architect Gianfranco Barban, BLab Italia CEO:

"We wanted to create something new, something that would transcend the fair's usual furniture, something that would amaze people. That special something was the first crystal foosball table that we called Teckell. It was a tremendous challenge for us. And B.Lab demonstrated even more courage taking it on as a project. In the end, the marketplace rewarded us all."

TIMELESS BEAUTY

from sand, as always

TOUGH BEAUTY

shaping the perfect speed

Few would imagine that a miniscule grain of sand, tumbling in the ocean waves, could become a luminous work of art. Yet magic happens. Teckell's crystal materializes from this wondrous blend of the most modern technology and the age-old craftsmanship of master glassworkers. Delicate beauty yet remarkable strength are in perfect harmony. Light and shapes come together to give life once again to unique products.

Thick tempered clear crystal structure -15mm- increases the game speed. The crystal, with beveled and cerium oxide-polished corners, a quintessentially cool surface that is both precious and tough. That *leggerezza* that only crystal and Teckell can transmit. This is Teckell patented innovation: cutting-edge engineering solutions transforming a light and elegant material into an incredibly sturdy object.

DESIGN TECHNOLOGY

impeccable details

Behind the sleek crystal and glimmering fittings, cutting-edge technology is hard at work in *Cristallino*. Anchored with understated yet durable aluminum-coated fittings, the table withstands epic matches. Rods are equipped with special, self-lubricating bearings so that they slide back and forth quietly, smoothly and quickly. Rod ends featuring two layers of shock absorption.

LIFESTYLE

quintessential minimalism

Cristallino's clean lines and sleek look allow it to fit in beautifully with any decor. Modern furnishings or an all-white color scheme are naturals for a piece of this style, but *Cristallino* can also add a fascinating contrast to opulent and even baroque interiors.

CRYSTAL CLEAR

**HERE, THERE, EVERYWHERE
ENTERTAINMENT**

Fun 'al fresco'

*"In the right light, at the right time,
everything is extraordinary."*

Aaron Rose

Break free from the four walls. The Teckell experience is now available outdoors as well as indoors with a foosball table that defies the elements. Take in a game while poolside. Sip cocktails on the terrace before, during and after a match. Crush the competition during a backyard tournament and barbeque.

**IMPROVING
PERFECTION**

A pretty face and more

Outdoor is outstanding, thanks to new features and innovations. Only solid metal without defects is used. The brass elements and aluminum players are milled and lathed, one by one, with CNC machines for an artisanal touch and computerized precision. In this model, the players even have faces. The playing field is made of Corian®, the first and finest of acrylic polymer surface materials, a favorite of designers.

THE GAME'S NEW FRONTIER: OUTSIDE

Foosball unleashed

The game never ends with the Teckell Cristallino Outdoor. No matter what Mother Nature delivers, this table stands up, providing worry-free fun.

Corian®, the playing field's surface, is non-porous and stain resistant. This revolutionary material maintains its color and even withstands heat up to 212°F (100°C), perfect for poolside.

Be-gone rust, too. The stainless steel rods are AISI 316, a type that is highly resistant to corrosion and commonplace on yachts. Teckell designers found inspiration on the high seas, adapting this metal to Outdoor. And, yes, the table can be installed on a yacht or any boat with a special kit. Sail away in style.

ON CLOUD NINE

LIFESTYLE

comfortable modern interiors

Long before there were words such as “sustainable” or “green,” Teckell was crafting objects with Mother Nature in mind – that is, gorgeous, 100% Italian objects made with fine materials that are cherished and handed down. The 90° Minuto foosball table features old-growth Canaletto walnut and crystal, a precious yet robust material.

Teckell has found the perfect balance between technology and craftsmanship. Master artisans are behind the creation of every single 90° Minuto foosball table. Just as past generations, they carve the Canaletto walnut structure and cut the extra clear glass but are now armed with the latest tools. CNC machines ensure unrivaled precision and significantly reduced waste. Computers help craft these works of art but don't make them run.

Wood is in Teckell's blood. Our first Calcio Balilla collection was created in a family-run carpentry workshop. The same artisanal and detail-oriented approach lives on today in each of our collections. Our designers are also constantly searching for ways in which to modernize Teckell's tables while maintaining that delicate balance of craftsmanship, function and a pure style.

The wood and chrome details that define Teckell 90° Minuto are also found in elegant, timeless interiors. The table with its lean lines emanates a Scandinavian feel, blending in wonderfully in warm, harmonious environments, while staying true to its 100% Italian roots, which guarantee quality and that extra special touch.

UNIQUELY WOOD

Canaletto walnut legs and structure evoke the world of sailing.

TECKELL'S
POOL TABLES
ARE A SYNTHESIS
OF INNOVATION
AND TRADITION,
ART AND DESIGN,
TECHNOLOGY AND
CRAFTSMANSHIP.

Teckell.®

BILIARDO
Collection

BILIARDO: PRO DOES NOT MEAN UNSTYLISH

These one-of-a-kind objects are the result of thinking way outside the box and maximizing the capacity of materials.

A pool table in your own home has become a status symbol, but ideally it should also be a tasteful piece of furniture.

That's prompted Teckell to create elegant tables that both add to the decor and attract people, encouraging them to gather around and shoot for a spell. Daily life becomes that much more fun and stylish.

Teckell pool tables reflect our mission to create objects that are avant-garde, experimental and surprising. We consult with professional players to ensure that our tables are always state-of-the-art.

Since its beginning:

"Pool is a game of thought and concentration, but also an important piece of furniture. Being a serious pool player, I have always been intrigued by the idea of creating a crystal pool table. I'd been bouncing this idea around in my head for a long time. One day I presented it to Gianfranco who was enthusiastic about it. He believed and trusted in me. Together we were able to make it a reality."

- Marc Sadler, Teckell's pool tables designer.

"THE BIGGEST CHALLENGE WAS TO COMBINE THE WILL TO PRESERVE THE PURITY OF THE ARCHITECTURE LINES IN GLASS WITH THE NEED TO GUARANTEE THE STABILITY OF THE TABLE AND TO RESPECT THE GAME'S RULES. "

- Marc Sadler

Teckell innovations stand in any T1's component, made possible thanks to the great team work among Teckell's artisans and Studio Sadler.

As for the innovation with game holes, where classic pockets have been replaced by highly flexible polyurethane pockets that can hold three playing balls and return to their original shape when emptied.

INNOVARE [;innovate]

"No one wants to learn by mistakes, but we cannot learn enough from successes to go beyond the state of the art." - Henry Petroski

UNRIVALED PRECISION

through digital technologies

Each table is created using computer numerical control (CNC) machines which ensure unrivaled precision. Every phase of the process, including final touches, is entrusted to our master craftsmen.

FLOATING PLAY

crystal sheets sculpted into an elegant, streamlined shape

The light dances across its handcrafted surfaces, courting you to take up a cue and experience a whole new game. Playing field is made of a single sheet of tempered crystal at least 9/16" thick. The glass plate legs with beveled edges ensure its stability. These legs slide into the open pore lacquered black oak that have carved grooves for securing the glass and hiding the perfect regulation system.

CHAMELEON AT HEART

*Contemporary modern, retro-glam, industrial, design-minimalist.
No matter the environment, Teckell pool tables go well with any style.*

Much more than pool tables, these design objects reflect the passion and personality of its owner:

- Two sizes available: 9-feet (regular table) and 8-feet, ideal for modern homes' living spaces. The incline of the crystal legs differs slightly between the 9 and 8 feet table sizes.

- 4 different solid aluminum rails: black anodized / light bronze / gold lacquer finish / Canaletto walnut wood inserts.

- 25 colors to choose for its playing cloth Simonis® 86 – the finest bar none, made of worsted wool.

CANALETTO WOOD

durable wooden details

Teckell selected this durable yet elegant wood, a favorite for decorating yacht interiors, which is inlaid along the aluminum rails and forms the table's solid wood base, creating complementary lines.

NEW CLASSICS

reinventing old-style materials

T1.3 Teckell is the perfect choice for a traditional game room with a modern flair. Behind every table is the work of a traditional carpentry workshop that also embraces 21st-century technologies. Artisans work with age-old precious woods as well as today's cutting-edge materials. Old and new come together to give a fresh spin to each long-lasting, eco-friendly table.

PERFECT PAIRING

a Teckell lifestyle

Teckell's carefully selected premium materials are used to craft various pieces in the collections, permitting you to take advantage of a uniform furnishing style. For example, the 90° Minuto foosball table features a canaletto walnut structure. The same wood is also featured in the T1.3 pool table for an unusual reinterpretation of the traditional table.

CANALETTO WOOD

Precious canaletto walnut accents create a model par excellence.

Plug-and-play system: cloth stretching technique that is easy and flawless for a perfectly even playing surface.

Playing field made of a single sheet of **tempered crystal** at least 15 mm thick.

Playing surface cloth: Simonis® 860™ worsted wool, available in **25 colors**.

Installation of a **soundproofing polyurethane layer** below the cloth.

Each table created using only computer numerical control (CNC) machines which ensure unrivaled precision.

Legs made of **clear tempered crystal** at least 15 mm thick with double-bevel edges. The incline of the crystal legs differs slightly between the 9 and 8 feet table sizes.

Bases in **solid oak** which has been ebonized (a reaction that turns black the open pore wood) with a shiny stainless steel structure.

Precise leveling system utilizing 12 screws hidden inside the table's wooden base.

Solid aluminum rails with **Canaletto walnut wood, Leather, Gold 24k hand-brushed inserts**.

Polyurethane bumpers.

Classic pockets have been replaced by **highly flexible polyurethane pockets** that can hold three playing balls and return to their original shape when emptied.

TECKELL STRATEGO

multi-game boards

White Calacatta / Black Marquina

STRATEGO: TAKE YOUR TIME

Teckell Scacco Collection invites you to slow down and enjoy your precious free time.

Strategy, contemplation, intelligence: all three are key elements for enjoying Teckell's board games but, above all, you need time. A rare gift in this hectic era. The time for pondering your next move, lingering over the board, challenging your sparring partner.

A collection dedicated to those for whom patience is a virtue and beauty is unabashedly adored.

Stratego is also a design object to admire while you lounge on a leather sofa and do absolutely

nothing. Or it can quickly become the setting for a modern-day strategic duel between friends.

With Teckell Stratego, the beloved board game is elevated into a precious design object, a sculpture to be touched and played with.

"Teckell's tried-and-true materials were our inspiration – marble, crystal and steel – which Stratego combines in a single product." – says Lorenzo Di Giovanni, creative head behind Teckell Design Lab.

"STRATEGO HAD TO BE NOT ONLY A CHESSBOARD BUT THE BASE FOR VARIOUS BOARD GAMES. ALL THIS WHILE HIDING FROM VIEW THE MECHANISM."
- Lorenzo Di Giovanni

It was important that Stratego have a clean profile without elements breaking up the lines. In this way, you can best appreciate the reflections and the interplay of light created by the combination of different materials.

That is why we devised a magnetic opening system for the game board, which rests inside the base. This allows you to extract the game board - Stratego clean lines hide four different games: Chessboard, Checkers, Backgammon, Chinese chess, Ludo - and substitute another without any push-buttons or latches that would've broken up the marble base's minimal lines. Innovation and a 'less is more' approach make Teckell's signature.

MERAVIGLIARE [:marvel]

One board, three layers of marvel: a base in white or black marble and a thin metal game board, secured by an extra-clear crystal top. Just choose a game and place inside the appropriate game surface.

MULTI-GAME

four different game options

Interchangeable game surface in thin metal allowing you to play multiple games. Just choose a game and place inside the appropriate thin, metal game surface. through the simple magnetic opening.
Available games: Chess and Checkers, Backgammon, Ludo, Chinese chess (Xiangqi).

CHESS HEROES

masterpieces of art in miniature

“Details make perfection,” said Leonardo Da Vinci. Chess pieces made of lathed, extra-clear borosilicate glass cylinders decorated with 24k gold / chrome plated brass.

YIN AND YANG

one soul, two appearances

Solid base features two finishings: white Calacatta Carrara and black Marquina marbles. A block of tempered, extra-clear crystal solidly rests on top, completing another masterpiece by Teckell, dedicated to crafting stylish, classic board games.

LIFESTYLE

an enlightening coffee break

This design object entertains as well as fascinates guests, drawing people in and becoming the living room’s centerpiece. Pour a cup of fresh-roasted coffee or an after-dinner drink and settle in for lively game or two.

STUNNING PURITY

Calacatta is undoubtedly one of the most beautiful white marbles. An hard and resilient marble, delicate only in appearance. It appears to have been naturally decorated with special grey veins.

CALACATTA WHITE MARBLE
base

ATTRARRE [:lure]

"It's attention to detail that makes the difference between average and stunning."
– Francis Atterbury

COSMOPOLITAN MINIMALISM

Black Marquina is an intense black marble with intricate white veins, sophisticated elegance and velvety appearance. Its irregular white veins, concentrated to a greater or lesser extent according to the slab being installed, visually recall a painter's brushstrokes on an intense black canvas. The final effect, a majestic velvety stone mantle that dissolves into a decorative setting, offering endless aesthetic possibilities. Black Marquina leaves no-one unmoved.

BLACK MARQUINA MARBLE
base

Chess pieces decorated with 24k gold-plated brass.

Extra-clear crystal top.

Chess pieces made of lathed, extra-clear borosilicate glass cylinders.

Chess pieces decorated with chrome-plated brass.

Solid base, two finishings:
White Calacatta Carrara Marble
Black Marquina Marble.

Simple magnetic opening.

Chrome-plated
Teckell Badge.

A single board can be used to play four different games, thanks to the interchangeable, engraved thin metal sheets:

1. Chess & Checkers
2. Ludo
3. Backgammon
4. Chinese chess (Xiangqi)

Designed for indoor use.

TECKELL CICLOTTE: PURE EXPRESSION OF CONTEMPORARY LIFE

*A unique transparent exercise bike
that adds class to every living context.*

Teckell's Fitness Collection is the result of a burning desire to experiment and put to the test the Italian tradition of manufacturing excellence in order to revolutionize objects that combine technology and design.

Thus, pure crystal serves as the primary material for exercise equipment, dynamic by definition, in which manufacturing perfectionism encounters esthetic minimalism.

Meeting this challenge prompted Teckell to partner with Ciclotte, an Italian company that manufactures stylish fitness equipment. The Teckell Ciclotte exercise bike embodies the two company's technological expertise and meticulous craftsmanship.

Teckell's motto *"Italian design looks forward"* meets Ciclotte's *"Ride on design"* in the realization of an object that's a pure expression of contemporary life.

The two companies designed the unthinkable: a sturdy, high-tech exercise bike made of glass and sporting a style all its own. This transparent bike is truly one-of-a-kind and suitable for any decor.

Engineered by Luca Schieppati (Ciclotte®) and enriched by Gianfranco Barban (Teckell®), Teckell Ciclotte is a unique furnishing accessory that has cruised onto the design scene offering both exceptional performance and a high aesthetic value.

A QUATTRO MANI

Designed by artisans yet loaded with high-tech elements, Teckell Ciclotte, the crystal exercise bike offers a stylish ride with a distinct personality.

TECKELL CICLOTTE
IS A SCULPTURE
THAT DOES NOT
EXCLUDE FUNCTION.

The transparent crystal blends harmoniously with the structural elements made of high-tech materials and sophisticated mechanisms.

This streamlined design object is also, for all intents and purposes, an exercise bike that provides an intense training experience, guaranteeing optimum performance thanks to the sophisticated mechanics and ergonomics.

Ultimate solution for the interior of private home gym, Teckell Ciclotte is the modern exercise bike conceived for the interior design of luxury homes, office interior design contractors, hotel gym design and amazing yacht fitness activities.

WHEEL

take a spin on crystal

Teckell innovation for Ciclotte: the 30-mm thick crystal disc replaces the bike's original circular frame for a stunning, sleek look.

BASEMENT

a bike that follows your movements

High-performance training is possible thanks to an adjustable magnetic resistance system (12 magnets and the flywheel make up the transmission).

SEAT

cycling and spinning style

Racing bike gel seat with trim for use both for cycling and spinning.

Adjustable in height and grade
Pitch: 15mm / Total stroke: 21cm

Maximum user's weight: 118Kg

BLUETOOTH

anywhere, with a swipe

Teckell Ciclotte is equipped with a kit for mobile devices, composed by a specific electronic built-in board and a special holder for tablets and smart-phones.

The kit allows the bike to be integrated with any type of smart-phone and tablet, offering a wide range of entertainment opportunity during the work-out.

SLEEK LOOKING

This glamorous version with its polished steel base just begs to be in the spotlight.

POLISHED STEEL
structure

BOLD PERFORMANCE

The sporty Teckell Ciclotte in all black, a color that never goes out of style. Teckell's collections often embrace black and minimalist design for sleek, artistic expressions.

BLACK
structure

This Bluetooth-enabled bike also can be equipped with a sturdy stand (black only) for a smartphone or tablet. Watch movies, listen to music or follow simulated trail or road routes via a special Android/iOS-compatible app that also tracks speed and distance. Featuring 10 resistance levels fine adjustment.

Handlebar and grip system for an ergonomic, vertical structure. Handlebar in carbon fibre or hand painted adjustable in height and grade.

Racing bike gel seat with trim for use both for cycling and spinning. Adjustable in height and grade: pitch: 15mm, total stroke: 21cm
Maximum user's weight: 118Kg

The frame available in polished steel or black varnished steel.

High-performance training is possible thanks to an adjustable magnetic resistance system (12 magnets and the flywheel make up the transmission). The flywheel spins at a high speed due to a system that multiplies the pedal turns, enhancing the magnetic field's strength.

An electronic system regulates resistance.

A 30-mm crystal disc replaces the bike's original circular frame for a stunning, sleek look. Frame in steel and laser cut multi-layer glass: external layers in tempered glass and internal layer in hardened glass.

Due to the unusually compact transmission, the distance between the pedals is only 6 cm. This narrow gap helps the rider avoid joint problems.

The transmission with gear box simulates a racing bike.

The flexible, chrome-finished/carbon-fiber base follows the body's movements. The frame flexes sideways when under pressure, just as when cycling on a street.

Certifications: EU/US/China.

Patented Design: covered by International Ornamental Model.

Designed for indoor use.
